

We're about six miles north of I694, just off the 95th St. exit from I35W. From the exit, head west and follow the road as it turns first right, then left.

Alternatively, turn east from MN 65 onto 105th St. (a stop light intersection), then right again at the tee, which is marked "Radisson Road."

From either way, the only tricky part is that you must turn onto our street in the middle of a curve (see detail). There are turn lanes in both directions.

Leaving the airport, take MN 5 west, which merges into I494. Take Interstate 494 to the intersection with I-35W and head north. Stick tenaciously with 35W as it turns and temporarily merges with County 62, then again as it dodges around downtown, temporarily merging at that point with I-94. Plan about 1/2 hour for the trip to our plant.
